**This is NOT a substitute for 911**

- Protects the anonymity of the sender by assigning a six-digit code with numbers and letters.
- Messages can be responded to in real time creating an instant two-way live "chat".
- It allows the public to text photos or video to the police anonymously.

## What tip411 doesn't do:

- It doesn't track the identity of the tipster.
- It is NOT a substitute for calling 911. If you need police or other emergency responders you still should call 911.
